

May 6, 1950.

Dr. S. E. Luria,
Dept. Bacteriology,
Indiana University,
Bloomington, Indiana.

Dear Lu-

Concerning Latarjet, I called Novick, and he thinks we might arrange to have our next seminar about June 10, possibly here in Madison, so that he can meet with us. From your itinerary, I take it that you would be unable to be here under any circumstances?

Re Silvestri, I am sorry that we are much too pressed for space this year to be able to consider taking on any postgraduate personnel — and we couldn't find suitable funds on this notice, if space were available. However, we will be very glad to have Silvestri visit us for a few days or a week, if he would care to do so.

Sincerely,

Joshua Lederberg
